GARAGE DOORS

RESIDENTIAL PRODUCT GUIDE

C.H.I.® a NUCOR company

The Quality Garage Door.™

Making a Better Garage Door

C.H.I. Overhead Doors was built on the idea that garage doors should be exceptional in quality, craftsmanship, and value.

From the beginning, C.H.I. set out to be a different kind of garage door company. One that not only builds garage doors, but that also celebrates heritage, tradition, and values.

As the premier garage door manufacturer, we continue to grow with a dedicated purpose - to provide our customers with the very best in garage doors and service. We work continuously to improve our products and manufacturing process one door at a time.

Photo of C.H.I. Overhead Doors manufacturing facility

DEALER NETWORK

Our garage doors are sold only through our network of C.H.I. dealers: dedicated professionals who install and service our doors with the same quality and workmanship that we use to manufacture them.

WARRANTY

The warranty is only as good as the support you receive when you need it. C.H.I. is the leader in the garage door industry for the best warranty support after the sale.

SUSTAINABILITY

Our community is quiet, safe, and clean – and we do our part to keep it that way. We've taken steps to ensure that our operations, processes, and the products we use have minimal impact on the environment.

CHANGING LIVES

Supporting the communities we live in is a cornerstone of our business, and we are devoted to helping those who are in need of a new, safe, and secure garage door.

Planks p16

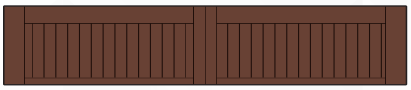

Skyline Flush p20

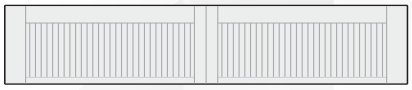

CARRIAGE COLLECTION

24

Classic appearance of carriage house doors available in a variety of materials and designs.

Shoreline p24

Overlay Carriage House p26

FULL-VIEW COLLECTION

30

Aluminum and glass combine to create a unique and exceptional modern garage door style.

RECESSED PANEL

32

Combining steel and aluminum creates the nostalgic look you crave while offering the reliability you need.

DASMA Door & Access Systems Manufacturers Association International

THERMAL PERFORMANCE VERIFICATION PROGRAM

www.dasma.com/thermal

COMPLIANCE WITH THE DASMA THERMAL PERFORMANCE PROGRAM

The DASMA Thermal Performance Verification (TPV) Program certifies and verifies the thermal performance ratings of sectional door products using third-party testing and inspection. The U-factor testing standard for garage doors, ANSI/DASMA 105, provides repeatable and reproducible results. U-factor tests an installed assembly to assign a value that accounts for section joints and perimeter seal.

Models in this program will be identified by this icon

RAISED PANEL

Short Raised Panel shown in sandstone.

Long Raised Panel shown in accents woodtones walnut with optional prairie window inserts and plain glass.

Raise the Standard

Add depth to your garage door with C.H.I.'s raised panel design, available in both short and long panel options. The raised panels start with a recessed edge, but the interior surface of each panel is brought slightly forward, adding just a hint of definition to a classic garage door design.

Short Raised Panel shown in white with optional stockton window inserts and plain glass.
